

Level enables Walkers to switch to monthly pay

“It is important that workers understand and recognise the value we place in them.”

- Jason Scott, Managing Director

High payroll costs but a workforce used to weekly pay

Operating weekly payroll was a time and cost burden for Walkers. Management wanted to move to a monthly payroll but were keen that this did not have a negative impact on their workers used to weekly pay.

As a transport company employing HGV drivers, they operate in an industry struggling to recruit post-Brexit and didn't want to disengage staff with the move.

40

less payroll cycles a year

Monthly pay for the company, anyday pay for staff!

By introducing Level's on-demand pay service alongside the switch to monthly pay, Walkers were able to ensure staff welcomed the change.

This meant that the business could enjoy the cashflow and cost benefits of monthly pay, while empowering workers to get paid as frequently as they want. A win-win!
